About Me

Inquisitive and energetic computer science specialist skilled in leadership, with a strong foundation in mathematics, logic, and cross-platform coding. Seeking to leverage solid skills in collaboration, communication, and development as a programmer. An effective communicator with good problem-solving and analytical skills.

Career Objective

Bachelor of Software Engineering student with hands-on experience working across software development and analysis. Looking for a role where I can apply my knowledge, grow and learn from experienced professionals, and contribute innovative ideas.

Education
